page **10**

Roberto Principe could be one reason why there is a surge in vegetable production in Tayabas City. Starting with two hectares inherited from his parents, he now grows high-value crops on 10 hectares that he owns, selling his harvest to the Sentrong Pamilihan ng Produktong Agrikultura.

page **22**

Dr. Ronaldo Sumaoang, a microbiologist who took advanced training in two scientific institutions in Germany, has come up with what could be the first bio-organic foliar fertilizer derived from fish scraps.

page **40**

The Oberhasli is a promising dairy goat breed that was introduced to the Philippines only about three years ago. One superior doe at the Alaminos Goat Farm produced 4.5 liters of milk a day for the whole month of March 2014.
