26 | COVER STORY

Data mining your general ledger with Excel

Learn how to use Microsoft Excel to unearth and interpret the wealth of data hidden in the general ledger.

36 | How to sponsor diversity in the leadership ranks

A regional accounting firm uses a traditional tool to mix up its traditionally white, male leadership ranks.

40 | Student loans: What you need to know before signing

Proper planning can minimize the risks these loans and their repayment options pose to personal finances.

46 | Why audit teams need the confidence to speak up

In an effective audit process, team members need to feel safe to raise questions and concerns without fear of losing credibility.

52 | The value of risk interviews as part of ERM strategy

One answer at a time, organizations can identify and address critical risks.

58 | Getting in shape for tax season

The annual marathon of forms, schedules, and worksheets is beginning once more. As CPAs and their staffs train and ready their equipment, they might add these reminders of what's new and notable for 2016 returns. **Plus:** The *JofA's* annual quick guide, a tear-out tax season reference highlighting dollar thresholds, tax tables, standard amounts, credits, and deductions.
